Are you looking for a tool that will make your conference calls more interactive and engaging? Need a way to bring the power of graphic presentations delivered via the Internet to any size meeting you may host? Conference PlaceSM from InterCall® is the answer. Conference PlaceSM provides a flexible web conferencing platform that can be optimised with the features that best fit the type of meeting you're conducting. From small, collaborative working sessions to large online presentations, Conference PlaceSM makes it easy for you to present and for your participants to benefit from the web conference no matter what size the group.

Here Are a Few Ways to Put Conference Place to Work

- + Host speaker events and web seminars to educate your customers
- + Launch products to the press, employees and clients in a virtual forum
- + Conduct company-wide events to report on corporate issues
- + Share benefits options to new hires to get them quickly up to speed
- + Conduct collaborative status meetings with your project team and share the latest developments
- + Present proposals to new prospects without traveling to their locations

Conference Place Features

Schedule Meetings and Invite Participants With the Outlook® Plug In, you can perform scheduling and invitation tasks without logging onto Conference PlaceSM or even choose to "Meet Now" with a single click. The plug in lets you set up defaults and preferences including invitation copy and audio conference dial-in information. If you do not use Outlook®, you can perform these tasks from within your Conference PlaceSM account using your own email and calendaring application.

Conference PlaceSM Custom Slides Add Conference PlaceSMText, Whiteboard, Web, Poll, Snapshot and Sharing slides to your PowerPointTM slide deck. Conference PlaceSM custom slides add functionality and collaborative options to your standard slide presentation. The custom slide titles will appear in the presentation index for easy transition. You can even reorder or rename your slides right from the Conference PlaceSM interface.

Live Q&A Audience members can ask questions and get answers without interrupting the presenter. While one person is presenting, another person or numerous people can serve as co-presenters and immediately respond to questions. Answers can be provided directly to the questioner (Private Reply) or shared with the entire audience (Post to All).

Seating Chart and Mood Indicators Audience members can change their seat colours to visually communicate their level of understanding or desired pace without interrupting your session. You can adjust your delivery in response to the audience's needs. Plus, presenters always know who is in a session by viewing the seating chart.
